

We build the website first. You pay only if you keep it.

Websites and social advertising for local businesses across Denver and Dallas. No deposit, no contract, and no fee to see what we made for you.

THE WEBSITE

\$500

one time, paid only if you keep it

Up to five pages, live in 7 to 10 days, two rounds of changes, Google profile set up.

SOCIAL ADVERTISING

\$500 /mo

eight ads a month, cancel anytime

Two fresh ads every week and a one page report every Friday. Ad spend is separate and paid by you.

HOSTING AND CARE

\$10 /mo

optional, month to month

Hosting, domain renewal, SSL, nightly backups, uptime checks, and small text edits.

How it works

Four steps, and the first three cost you nothing.

1

You tell us about the business

A phone call or a few lines is plenty.

2

We build the whole site

Finished, on our time. Roughly a week.

3

We present it to you

In person or on a screen share. No fee.

4

Then you decide

Keep it for \$500 or walk away owing nothing.

What you get either way

- ✓ A site that loads fast and reads clearly on a phone
- ✓ Your phone number as a button, not buried in a footer
- ✓ Prices or price ranges stated, because hidden pricing costs you calls
- ✓ Your Google Business Profile claimed and connected
- ✓ Readable by screen readers, with real contrast and large type
- ✓ The domain, the files, and every account in your name
- ✓ An owner who answers the phone, not a support ticket queue

Logos and print design at no charge

Buy a website or run the retainer and the design work is included: logo, shirts and hats, yard signs, menus, business cards, and print-ready files. You pay the printer, never us.
